

A fresh voice. A different choice.

Angela Shields

Central-East Regional Representative

Connected

Regional representatives should be connected with their region's stewards and members. I will be the source of information for all members of the Central-East region.

Committed

We are looking at another year of navigating pandemic protocols, a provincial election, and beginning another round of bargaining. I will be informed, involved, lend my time and skills to these important situations, and ensure members are kept up to date with ETFO's work on these matters.

Accountable

2 years ago a motion was passed at AGM to put together a regional rep task force. I will offer to be a part of this task force and ensure the role is benefiting all members.
